

Promoting health and hygiene

1.17 Nappy changing

Policy statement

No child is excluded from participating in our setting who may, for any reason, not yet be toilet trained and who may still be wearing nappies or equivalent. We work with parents towards toilet training, unless there are medical or other developmental reasons why this may not be appropriate at the time.

We make necessary adjustments to our bathroom provision and hygiene practice in order to accommodate children who are not yet toilet trained.

We see toilet training as a self-care skill that children have the opportunity to learn with the full support and non-judgemental concern of adults.

EYFS key themes and commitments

A Unique Child	Positive Relationships	Enabling Environments	Learning and Development
1.2 Inclusive practice 1.4 Health and well-being	2.2 Parents as partners 2.4 Key person	3.2 Supporting every child	

Procedures

- Key persons undertake changing young children in their key groups; back up key persons change them if the key person is absent.
- Changing areas are warm and there are safe areas to lay young children if they need to have their bottoms cleaned.
- Each young child has their own bag to hand with their nappies or 'pull ups' and changing wipes (these need to be supplied by parents).
- Gloves and aprons are put on before changing starts and the areas are prepared. The changing mat is cleaned thoroughly after each use.
- All staff are familiar with the hygiene procedures and carry these out when changing nappies.

- All parents with children that require nappy changing will have signed a nappy changing consent form to allow staff to carry this out.
- In addition, key persons ensure that nappy changing is relaxed and a time to promote independence in young children.
- Young children are encouraged to take an interest in using the toilet; they may just want to sit on it and talk to a friend who is also using the toilet.
- They should be encouraged to wash their hands and have soap and a hand dryer to hand. They should be allowed time for some play as they explore the water and the soap.
- Anti-bacterial hand wash liquid or soap should not be used for young children.
- Key persons are gentle when changing; they avoid pulling faces and making negative comment about 'nappy contents'.
- Key persons do not make inappropriate comments about young children's genitals when changing their nappies
- Older children access the toilet when they have the need to and are encouraged to be independent.
- Nappies and 'pull ups' are placed in a sealed nappy sack and left in a sealed plastic box outside the entrance door, for the parent's to take home and dispose of as we have no means of disposing of these.
- NB If young children are left in wet or soiled nappies/'pull ups' in the setting this may constitute neglect and will be a disciplinary matter. Settings have a 'duty of care' towards children's personal needs.
